

Why Support Parks?

Parks Build Community

Parks provide gathering places and offer equal access to all citizens regardless of age, gender, economic status, ethnicity or ability. Parks provide opportunities for involvement and create a sense of pride in a community.

Parks Protect the Environment

Parks play a vital role in protecting open space, connecting people to nature, and engaging the community in conservation practices. Parks also improve water quality, protect groundwater, prevent flooding, and improve the air we breathe.

Parks Improve Health & Wellness

People who use parks and open spaces are 3 times more likely to achieve the recommended levels of physical activity than non-users. Parks offer exercise opportunities like playgrounds, walking trails, and outdoor gyms at no charge to the community.

Parks are Good for the Economy

Parks make a community more desirable for businesses and residential development. In fact, real estate values increase as properties are located closer to parks.

Our Mission

To care for and improve New Hanover County's parks. Through these improvements we enhance more than the county's beauty, we improve the health, community and economic strength.
