

Pump Track & Skills Course at Northern Regional Park

Donation Opportunities

The Parks Conservancy of New Hanover County is a 501(c)3 non-profit. EIN 32-0431892

Our Mission

To establish a premiere Pump Track and Skills Course at Northern Regional Park in Castle Hayne, N.C.

WHY ?

A Pump Track is a specially designed outdoor facility for wheeled riders that features a winding track with various bumps and jumps. The track is designed to provide riders with the ultimate experience by incorporating various obstacles that develop their skills and ability. New Hanover County Parks & Gardens is partnering with American Ramp Company to design a custom-tailored facility for our community. There are several reasons why building a Pump Track is a great investment for our county.

THE BENEFITS

- **Promotes physical activity:** A Pump Track provides a fun and exciting way for riders of all ages to engage in physical activity. It encourages riders to get outside and stay active, which can lead to a healthier lifestyle.
- **Builds Community:** A pump track brings riders of all ages and skill levels together. It promotes a sense of community and camaraderie among riders which can lead to new friendships and social connections.
- **Provides a safe place to ride:** With a designated pump track, riders have a safe and controlled way to practice their skills. This reduces the risk of accidents and injuries if riders were to ride in public spaces or uncontrolled terrain.
- **Boosts the local economy:** A pump track can attract riders from other areas, which can boost the local economy. Riders and their families may need to purchase food, lodging and other goods while in the area, which can generate revenue for local businesses.
- **Supports youth development:** A pump track and skills course can provide a positive outlet for youth to develop their skills and build their confidence. It can also teach valuable lessons such as perseverance, sportsmanship and teamwork.

Supporting this Project

The New Hanover County Commissioners have made it clear that creating and offering new amenities like a pump track are a priority by allocating money for Northern Regional Park. We believe that with community support, we can maximize those dollars and build a pump track- *but we need your help*. We are seeking donations and grants to fully fund a Pump Track and Skills Course. You can donate in many ways:

- Cash gifts
- In-kind donations of materials to offset construction costs

Thousands of people use Northern Regional Park every year- and your name will be included in signage at the entrance to the pump track and skills course.

Benefits and Recognition will be outlined in a proposal specific to your donation and will clearly state how you will be recognized and in what way you will be recognized for your gift.

Yes! We would like to support the Pump Track and Skills Course!
